Dear Ms. Cook,

As discussed during the April 21, 2017, conference call, CSRA has performed a preliminary review of the information presented in the draft source characterization excerpt provided by the Region on April 18, 2017. Per the Region's request that CSRA provide it with a list of issues of concern associated with this excerpt, CSRA has attached an annotated copy of the excerpt identifying overarching and preliminary issues and suggested topics for consideration as the HRS documentation record is developed.

Respectfully,

Josephine Bramble
